Professional Summary

Senior Full Stack Developer with over 10 years of expertise in .NET, C#, and modern web technologies. Demonstrated success in designing and implementing scalable web applications, RESTful APIs, and streaming platforms. Skilled in leading development teams, mentoring junior engineers, and driving technological innovation. Dedicated to writing clean, optimized code and solving complex challenges efficiently.

Core Competencies

- Full Stack Development (C#, .NET, JavaScript)
- Web Application Architecture & Design
- RESTful API Development & Integration
- Database Design, Optimization & Management
- Team Leadership, Development & Mentoring

Technical Skills

- **Languages:** C#, JavaScript
- **Frameworks:** .NET Framework, ASP.NET MVC, ASP.NET Core, Vue.js, Angular, React
- **Databases:** MS SQL, MySQL, MongoDB, Redis
- **ORM:** Dapper, Entity Framework
- **Web Technologies:** HTML5, CSS3, RESTful APIs
- **DevOps:** Git, CI/CD pipelines, Docker, Cloud Services (Google Cloud, Cloudflare, Azure)

Professional Experience

Senior Full Stack Developer

Excel SoftSources | March 2014 - Present - Architected and developed high-performance streaming platforms and content management systems tailored for Christian organizations. - Led the design and implementation of RESTful API services, improving system scalability and interoperability. - Spearheaded the migration of legacy systems to modern web architectures, resulting in significant performance and maintainability improvements. - Developed automated content distribution systems, enabling seamless publishing across multiple platforms, including YouTube. - Optimized database performance across MS SQL, MySQL, MongoDB, and Redis, ensuring efficient data management for large-scale applications. - Mentored junior developers and temporarily led teams, ensuring continuity and quality during team leads' absences.

Key Achievements: - Resolved critical live streaming infrastructure challenges, ensuring timely and successful multi-platform releases. - Reduced system response time by 40% through targeted performance optimizations and caching strategies. - Successfully executed major system migrations and updates with zero downtime, maintaining uninterrupted service.

Education

Diploma in System Programming, Colegio Universitario de Cartago

Languages

- **Spanish:** Native
- **English:** Advanced (Professional working proficiency)
